

Seek (Science Exploration, Excitement, and Knowledge): A Curriculum in Health and Biomedical Science for Diverse 4th and 5th Grade Students (Paperback)

By -

Children's Hospital Oakland, United States, 2010. Paperback. Book Condition: New. 279 x 213 mm. Language: English . Brand New Book ***** Print on Demand *****.SEEK (Science Exploration, Excitement, and Knowledge) is a 40-lesson curriculum in health and biomedical science for diverse 4th and 5th grade students. The curriculum presents scientific concepts, promotes investigative skills and healthy lifestyle choices, and introduces students to healthcare and scientific careers in the context of teaching about diseases and conditions that disproportionately affect minorities. The topics covered include nutrition and obesity, traumatic brain injuries, infectious diseases, environmental toxics, diabetes, asthma and lung disease, heart disease, and genetics and sickle cell anemia. The curriculum was developed under a Science Education Partnership Award (SEPA) from the National Center for Research Resources at the National Institutes of Health.

Reviews

This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You won't sense monotony at any time of your time (that's what catalogues are for relating to should you request me).

-- Jaqueline Kerluke

I just started looking at this pdf. It can be really fascinating through studying period of time. It's been printed in an extremely basic way and is particularly only following I finished reading through this publication where in fact altered me, change the way I really believe.
