GERMAN AND ONTARIO, SECONDARY SCHOOLS (CLASSIC REPRINT) (PAPERBACK)

Brand New Book ***** Print on Demand *****.Excerpt from German and Ontario, Secondary Schools The history of the German Secondary School since its foundation a century ago is a history of expansion and adaptation to new conditions. The curriculum of the Gymnasium, its original form, laid stress upon Latin, Greek, Mathematics and the native German, and was meant to furnish what were at that time deemed the essentials of a sound education. Very little Natural Science and no modern foreign language was included in it. The Gymnasium was a Universalistische Einheitsschule, the one all-sufficient Secondary School, and through it all students for the university passed, no matter what was to be their later calling. About the middle of the century the demand for a more modern school led to the institution, alongside the Gymnasium, of the Realgymnasium, in which Greek was entirely dropped, some Latin retained, more Mathematics and Science given, and - what was the striking innovation - two modern foreign languages were added for the first time. For nearly half a century after its establishment, however, the Realgymnasium was not recognised as preparing for the University. This recognition came only in the year 1900. Meanwhile, however, the call for a still newer kind of Secondary School had become more and more urgent. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
