Createspace Independent Publishing Platform, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.From the first chapter: WHAT IS PSYCHOLOGY? MOST people look at the word Psychology as though it stood for something of a mysterious character like witchcraft, hypnotism, New Thought or the like, when as a matter of fact Psychology is nothing more than organized common sense applied to the problems of the mind. If you have wondered why a building four hundred feet high looks longer than a ship four hundred feet long, if you have asked yourself why they always have music at the moving-picture show, if you have noted that time passes rapidly when you are busy, if you have observed green shadows after gazing at red, if you have heard the newsboy ask what paper instead of offering papers in general-if you have done things of this kind you have begun the practical study of psychology. In a more scientific way, Psychology may be called a study of one s own mental states and his neighbor s acts; it is thus a science of the mind s states and acts, of the intellect and the will. It is not sufficient for the mind to think or the will to act, not enough for one to have mental states and for the other to exhibit certain acts; to be a psychologist you must know the why and wherefore of these inner dreams and outer deeds. When you put yourself into an interrogative mood as to ideas and motives, you put yourself in the position of the psychologist. In order to turn your brain into a kind of homelaboratory, gaze all about you and then inquire whether your eyes have seen anything more than...
